ADMINISTRATIVE DATA

~~CONFIDENTIAL~~

The code name "MEDBURG" has been assigned to this case. u

This report has been prepared to set out additional investigation to develop witnesses to the burglary; information concerning individuals considered to be prime suspects; and results to date of FBI Laboratory examination of evidence. u

Intensive investigation is being conducted to identify, develop, and/or eliminate additional suspects. Results will be promptly furnished in the form of a report to the Bureau. u

Philadelphia has instituted physical surveillance of selected prime suspects. u

Telephone toll calls are being obtained on prime suspects and are being developed for information to corroborate other information to identify or eliminate suspects. u

As noted in details of instant report, [redacted] and [redacted] are being carried as prime suspects. In this connection, it is noted that on [redacted] of known reliability, advised that he had observed [redacted] and a white female, [redacted] together in conversation at 20 South 12th Street, Philadelphia, Pa., on [redacted]. Source later identified a photograph of [redacted] as closely resembling the white female, [redacted] observed in above described conversation. The address 20 South 12th Street contains offices of SANE, Women Strike for Peace, and other similar "peace" and anti-Vietnam groups. u

Concerning specimens Q91 (envelope addressed to [redacted] and Kc11 (Photo copy of authorized visiting list bearing reported known handwriting of persons visiting the Laboratory report dated 3/30/71, advised that the upper case typewriter impressions on Q91 are too limited to determine the make and model of the typewriter used in the preparation of these impressions. u

b6  
b7C

The limited nature of the comparable handprinting on Kc11 when compared with the questioned handprinting on the envelopes to Senator GEORGE MC GOVERN and the Washington representative of the Los Angeles Times prevent any leanings as to whether the questioned handprinting was prepared by any of the individuals whose handprinting appears on Kc11. u

Laboratory report to WFO dated 3/26/71 stated that efforts should be made to obtain known handprinting of logical suspects for comparison with handprinting on envelopes specimens Q48 and Q49. Q48 is an envelope addressed to "Senator George Mc Govern, U.S. Senator, South Dakota, Senate Office Building, Washington, D.C." u

Q49 is an envelope addressed to [redacted] Los Angeles Times, Washington Office, Washington, D.C." u

"(X) u

b6  
b7C

Source advised that [redacted] and [redacted] were observed conversing with each other in the hall area outside SANE Headquarters, 20 South 12th Street, Philadelphia, on the afternoon of 3/15/71. The conversation lasted over 15 minutes and appeared to be private and serious. Information concerning our interest in [redacted] as been previously furnished the Bureau. [redacted] is active in Resistance and an associate of Eastcon principals. [redacted] is the wife of [redacted] who was convicted in the Rochester Resident Agency break-in and is currently serving time on that charge. u

In reference to Items 1 through 4, the address of 20 South 12th Street is that of the Friends Religious Society of Friends Institute, the Quaker Action Group, SANE, and Women Strike for Peace. All have been active in the anti-Vietnam movement. u

Item 5 was issued by the Germantown Branch of Women's International League for Peace and Freedom. This organization has also been active in the anti-Vietnam movement. u

In reference to Item 6, the address 928 Chestnut Street is that of the Student Mobilization Committee and the Vietnam Veterans Against War. It is also the former headquarters of Resistance. u

To include the Laboratory report as to the above items and information as to the source from which obtained would tend to disclose the identity of the informant therefore this information is being set forth on the administrative page. u

Concerning the examination, the Laboratory in report dated 2/3/71, advised that the typewriter used in typing the above specimens, Q7 through Q12, was not used in preparation of the typewriter impressions on Q1 and Qc2. u

[redacted] on 9/21/70, furnished to SA [redacted] [redacted], a typewritten letter on letterhead of "Haverford College, Department of Physics" dated 9/1/70 addressed to "Dear BOYD" and bearing the handwritten signature "BILL." b6 b7C b7D

This letter was sent to [redacted] by [redacted] [redacted] Haverford College professor, is prominently known for his anti-Vietnam activities and on the evening of 3/11/71, he appeared at a forum and during his talk displayed a statement which he said he had received from the Citizens Commission to Investigate the FBI. u b6 b7C b7D

Laboratory report dated 3/22/71 discloses result of examination of this item listed as Q6 as follows: u

"It was determined that the typewriter impressions on Q1, previously submitted in this case, were not prepared on the typewriter used to prepare Q6. u

"Due to the lack of sufficient comparable letter combinations, it could not definitely be determined whether the typewriter impressions on Qc2 were or were not prepared on the typewriter used to prepare Q6. However, some differences were noted in the questioned typewriting on Qc2 and Q6 which indicate that they may have been prepared on different typewriters. u

With respect to Laboratory report dated 3/31/71, to WFO, the Laboratory for investigative assistance stated it appears that Q95 was not made from an original document. Buffalo and Rochester were requested by the Bureau to furnish Q95 to the Xerox Corporation for appropriate examinations. u

Since this is a continuing investigation, the investigative period for this report overlaps the investigative period of referenced report. u

In the February 2, 1970 edition of "The Evening Star", a Washington, D.C., daily publication, was an article captioned, "9 War Protesters Tell Of Raid On GE Here." This article stated that seven men and two young women attended a press conference at Georgetown University, Washington, D.C., the day before and admitted at this conference that they had ransacked the General Electric Office at 744 14th Street, N.W. Washington, D.C., on February 7, 1970, and also the files at three Philadelphia, Pa., Selective Service Offices on February 6, 1970. This article identified these nine individuals by name, and one of them was identified as  a Philadelphia draft resister and student." The article set forth the following information from   told reporters that GE had been chosen for the raid because 'there are 89 former military officers of ranks higher than captain or lieutenant working for GE. GE is acting with the government and military to perpetuate a system which is destroying life', he said." The article stated, "The group calls itself the 'East Coast Conspiracy to Save Lives.'" W

[ ] then asked [ ] at what point did he realize that the news release, which in fact referred to the burglary at an East Coast office of the FBI, involved the Media, Pa., Office of the FBI. [ ] replied at the time he initially read the news release he had absolutely no idea as to the location of the FBI Office referred to in the release since this release was the only information he had received to that point of the burglary of an FBI Office. He recalled, however, that on either Tuesday or Wednesday, March 9, or March 10, 1971, he noticed an article in "The Philadelphia Inquirer" newspaper which set forth the fact that the FBI Office in Media, Pa., had been burglarized and Government property removed. He said that at this point he assumed that the incident referred to in the press release was the same incident as carried in the Inquirer article, and that the news release in fact referred to the Media Office of the FBI. u

He further noted that [ ] who heads the Center for Non-violent Action at Haverford College, told him on either Tuesday or Wednesday, March 8, or March 9, 1971, that he, [ ] had received a telephone call from [ ], freelance newspaper reporter from Philadelphia, Pa. [ ] had informed [ ] that he was in receipt of a telephone call, morning of March 9, 1971 from an unknown individual who had given [ ] a press release from "The Citizens Commission to Investigate the FBI", which release dealt with the break-in and burglary of an FBI Office on the East Coast. u

[ ] asked [ ] whether or not he reported the receiving of this press release to the FBI. [ ] replied that he did not since he felt he had no moral or legal obligation to do so. He further explained that he has not retained this matter in secrecy since he made a public announcement concerning his possession of this release at a public forum on the night of March 11, 1971 in Swarthmore, Pa. [ ] asked [ ] if he had heard about, "The Citizens Commission to Investigate the FBI" prior to the receipt of this press release. He said that he had never heard of the organization, did not know the members or the leadership in the group and did not know where the group is centered. u

b6

During this interview [ ] did not specifically ask [ ] if he knew who might be responsible for the burglary of the FBI Office in Media, and he did not volunteer such information nor did he indicate he had such knowledge. u

During [ ] conversation with [ ] [ ] received a telephone call from [ ] reporter from "The Evening Bulletin" newspaper. [ ] is not aware of the questions posed to [ ] by [ ] since she could not hear both sides of the conversation. However, at one point in the conversation [ ] mentioned that he had recently met HENRY KISSINGER for the first time in person, recently in Washington, D. C. Additionally, [ ] commented to [ ] that he had met KISSINGER on previous occasions but when both had attended conferences which he referred to as "pubwash". u

He described the general living conditions of the blacks and the poor and commented the political control of governments prevented the blacks from participating in society on an equal basis. He complained of hypocrisy in government and criticized this country's support of dictatorships in foreign countries to promote its own interest and financial gain. He complained that for the last 20 years wars have been promoted by U.S. Presidents without the advice and consent of Congress. [redacted] criticized the U.S. role in Vietnam stating this country is fighting a war 8,000 miles away for the alleged purpose of self-determination of the South Vietnamese and denies that right to people in this country. He criticized this country's domestic policy in that the war in Vietnam grows larger and the war on poverty grows smaller. He stated the hypocrisy of the nation and its leaders must be eliminated before it can presume to set the world in order. u

[redacted] stated during his talk that he went to Philadelphia during February, 1970, and assisted in destruction of Selective Service records. [redacted] Bucknell University, Lewisburg, Pa., was the next speaker. [redacted] said powers of the Federal Government have become unbalanced with the Executive Branch assuming more power than it was ever intended to have. He criticized Congress for its failure to face responsibility and the Supreme Court for its reluctance to act in civil rights cases. He stated the Harrisburg Six case will be quite important if it comes to trial in that many precedents could result. He also cited several areas which could be utilized by the Federal Government for repressive purposes such as use of informants, wiretapping, granting of immunity and misuse of Federal Grand Jury System. [redacted] questioned the constitutionality of the conspiracy law. He complained of public statements made by the Director of the FBI and indicated statements by a person in such a prestigious position could very well prejudice public opinion against the defendants. Special Agents of the FBI observed demonstrations at Philadelphia, Pa., sponsored by the Philadelphia Resistance (PR) from August 22-28, 1968, from September 5-11, 1968, and from September 19-25, 1968, protesting U.S. involvement in Vietnam. Among those in attendance at the above demonstration was [redacted]. [redacted] participated in the destruction of a Selective Service card of a male PR member. u b6 b7C

An article in the "Evening Bulletin", a Philadelphia based newspaper, September 26, 1968, reflects that during a speech by the then Secretary of State, DEAN RUSK, at a Philadelphia, Pa., hotel, a woman displayed an anti-war banner and shouted anti-war statements. This woman was later identified as [redacted] age 21, of Boston, Mass., was a senior at the University of Pennsylvania, Philadelphia, Pa., and a member of the PR, a Philadelphia based anti-draft and anti-war group. u

An article in the "Daily Pennsylvanian", a University of Pennsylvania newspaper, November 15, 1968, reflected that [redacted] a senior at the University, participated in a Selective Service card turn-in demonstration and rally at Rittenhouse Square, Philadelphia, Pa. u

Special Agents of the FBI observed a demonstration at Philadelphia, February 14-21, 1970, sponsored by the PR to show support for the defendants at the "Chicago Seven Conspiracy Trial." Among those present was [redacted]

B. EXAMINATION OF PHYSICAL EVIDENCE FROM CRIME SCENE

Latent Fingerprint Section, Identification Division, report dated March 17, 1971 relative to the 41 lifts of latent prints and two pieces of cardboard from the crime scene, reported that seven latent fingerprints and three latent palm prints present on nine lifts and one latent fingerprint developed on one piece of cardboard. No other latent prints of value.

The eight latent fingerprints have been identified as fingerprints of Special Agents [redacted] and [redacted].

b6  
b7C

No palm prints available here for Special Agents named for elimination purposes or for [redacted] Philadelphia, Pa., [redacted] and [redacted] FBI [redacted] born March 18, 1927 in Fort Lauderdale, Florida.

Latent Fingerprint Section report dated March 22, 1971 states as follows:

"One of the latent palm prints previously reported this case has been identified as a palmar impression of SA [redacted] whose palm prints were submitted for elimination purposes. The two remaining unidentified latent palm prints in this case are not identical with the submitted inked palm prints of the seven Special Agents."

Latent Fingerprint Section report dated March 23, 1971 states that the two remaining unidentified latent palm prints previously reported in this case not identical palm prints of SA [redacted]

Request:

1. Compare the typewriting on Q1 and Qc2 and determine if prepared on same machine
2. Identify make of typewriter or typewriters used to prepare Q1 and Qc2
3. Compare typewriting on Q1 and Qc2 with typewriting in the EASTCON case

Result of examination:

It was determined that the questioned typewriting on Q1 was not prepared on the typewriter used to prepare Qc2. The typewriter impressions on Q1 are very limited, however, they most closely resemble the Laboratory standards for Ransmeyer style of type which is used on many typewriters manufactured in Europe. The typewriter impressions on Qc2 most closely resemble the Laboratory standards for IBM Selectric style of type.

It was determined that the typewriter impressions on Q1 and Qc2 were not prepared with the typewriter samples previously submitted to the Laboratory in the EASTCON case.

"THE CITIZENS' COMMISSION TO INVESTIGATE THE FEDERAL BUREAU OF INVESTIGATION

"March 18, 1971

"Dear friend,

"Enclosed you will find copies of certain files from the Media, Pennsylvania office of the FBI which were removed by our commission for public scrutiny. We are making these copies available to you and to several other persons in public life because we feel that you have shown concern and courage as regards the issues which are, in part, documented in the enclosed materials.

"You will also find a statement which our commission prepared at the time of this action which may help interpret our decision to you and others. Please feel free to make copies of any or all of this material and disseminate it ( or not ) according to your own judgement.

"About a week after you receive this material, our commission will publicly announce this mailing together with the names of those to whom we have sent it. We will, of course, make perfectly clear in our announcement that our actions were entirely

our own decision and responsibility. Your degree of public association or disassociation with our commission is entirely a matter of your choice.

"Sincerely,

"The Citizens' Commission to Investigate the FBI"

The contents of the statement of the Citizen's Commission is as follows: *W*

"On the night of March 8, 1971, the Citizens' Commission to investigate the FBI removed files from an east coast office of the FBI. These files will now be studied to determine:

- the nature and extent of surveillance and intimidation carried on by this office of the FBI, particularly against groups and individuals working for a more just, humane, and peaceful society;
- how much of the FBI's efforts are spent on relatively minor crimes by the poor and powerless against whom they can get a more glamorous conviction rate, instead of investigating truly serious crimes by those with money and influence which cause great damage to the lives of many people; crimes such as war profiteering, monopolistic practices, institutional racism, organized crime, and the mass distribution of lethal drugs;
- the extent of illegal practices by the FBI, such as eavesdropping, entrapment, and the use of provocateurs and informers.

"As this study proceeds, the results obtained along with the FBI documents pertaining to them will be sent to people in public life who have demonstrated the integrity, courage and commitment to democratic values which are necessary to effectively challenge the repressive policies of the FBI.

"As long as the United States Government wages war against Indochina in defiance of the vast majority who want all troops and weapons withdrawn this year, and extends that war and suffering under the guise of reducing it, as long as great economic and

125  
~~CONFIDENTIAL~~

~~CONFIDENTIAL~~

political power remains concentrated in the hands of small cliques not subject to democratic scrutiny and control, then repression, intimidation, and entrapment are to be expected. We do not believe that this destruction of democratic society results simply from the evilness, egotism or senility of some leaders. Rather, this destruction is the result of certain undemocratic social, economic and political institutions.

"We have carried out this action in a way which does not physically threaten anyone. We intend no personal harassment of the people who work in the office from which the files were taken. Indeed, we invite them and others to join with us in building a peaceful, just, and open society; one which does not wage nor threaten war, which distributes human and material resources fairly, and which operates on the basis of justice rather than fear.

"We have taken this action because:

- we believe that a law and order which depends on intimidation and repression to secure obedience can have but one name, and that is tyranny;
- we believe that democracy can survive only in an order of justice, of an open society and public trust;
- we believe that citizens have the right to scrutinize and control their own government and its agencies;
- and because we believe that the FBI has betrayed its democratic trust and we wish to present evidence for this claim to the open and public judgement of our fellow citizens.

"In doing this, we know full well the legal jeopardy in which we place ourselves. We feel most keenly our responsibilities to those who daily depend upon us, and whom we put in jeopardy by our own jeopardy. But under present circumstances, this seems to us our best way of loving and serving them, and in fact, all the people of this land.

Q48 Original envelope addressed to "Senator George McGovern"  
postmarked 3-19, Princeton, New Jersey

Specimen Q33 received 3-23-70 from Washington Field Office

Q33 Original copy of Q33

Result of examination:

The typewriter impressions on Q33 and other copies of this letter most closely resemble the Laboratory standards for Remington elite style of type which prints twelve characters per inch.

The paper, Q13 and Q14, is produced by the Minnesota Mining and Manufacturing Company for use in copying machines. It was further determined that these specimens were not prepared on the copier used in the preparation of Qc2, previously submitted in this case.

Due to the lack of sufficient identifying characteristics, it was not possible to determine whether the remaining specimens were or were not prepared on the copier used to prepare Qc2.

The questioned typewriting on Q33 was searched through the appropriate sections of the Anonymous Letter File without effecting an identification. No watermarks, indented writing of value or other marks which would indicate the immediate source of this material were noted on the submitted evidence. The stamps on Q48 are from a sheet of stamps.

It was not possible to determine the make of the typewriter ribbon used in the preparation of the questioned typewriting on Q33.

The submitted evidence is being sent to Buffalo with copies of this report. Photographs are retained.

**for IMMEDIATE RELEASE**

"The Citizens' Commission to Investigate the FBI announced today that it is compiling lists of FBI informers and provocateurs from records liberated from an FBI office. It called upon all FBI agents, and all who been trying to subvert the movement for justice and peace by informing on their sisters and brothers, to 'have a change of heart or leave.!

"The Commission declared it is the U.S. government which endangers these people, as it endangers the men it orders to Vietnam. Real concern for their well being, and for the democratic principles they are destroying, demands their immediate withdrawal - from Vietnam and from subverting local groups.

"In a few days, we will contact a first group of these previously undercover agents and suggest they cease their repressive actions if they have not already done so. We will then inform those individuals and organizations

**Result of examination:**

With the exception of Q84, the submitted copies are the same as copies previously received as noted above.

The copy, Q84, is the same wording as the copies, Q15, Q23 and Q31. The typewriter impressions on Q84 are the same style as the typewriter impressions on the news release specimens captioned "Citizens Commission to Investigate the FBI." However, the typewriter impressions on the copy of Q84 lack sufficient detail to determine if Q84 was or was not prepared on the same typewriter used to prepare Q14, Q34 and Q50.

It was determined that the hand printing on the envelope, Q49, was prepared by the writer of the hand printing on the envelope, Q48, addressed to Senator George McGovern.

No watermarks, indented writing of value or other marks which would indicate the immediate source of this material were noted on Q49 through Q83. The stamps on Q49 are from a sheet of stamps.

Q92 and Q93 are additional copies of Q13 and Qc2 respectively as well as other specimens previously submitted in this case. No watermarks, indented writing of value or other marks which would indicate the immediate source of this material were noted on Q92 and Q93. u

The handwriting of [redacted] K9, is not comparable with the hand printing on Q48 and Q49.

Cryptanalytic examination of the letters designated K9 did not locate any hidden code or cipher messages. It should be noted that double meaning, wherein certain words or phrases are given arbitrary meanings by the correspondents, could be present, but there is nothing to indicate that it is.

The submitted evidence will be returned separately. Photographs are retained.

[redacted] Business Product Group, 1700 Market Street, Philadelphia, Pa., telephone 561-4500, on March 19, 1971, viewed the Xerox copy of the press release issued by the Citizens Committee to Investigate the FBI received by [redacted] Philadelphia, Pa., Correspondent of Reuter's News Service, New York City, N. Y. He stated it appears to have been made on a Xerox Model #660-Desk which Xerox describes as a portable model. This model weighs 90 pounds and is not truly portable. If it is moved about, it will disturb the correct functioning of the machine. u

b6  
b7C

[redacted] stated that the Xerox Corporation representatives at Webster, N. Y., and at Rochester, N. Y., would be able to state positively the model machine used to copy this press release. In addition, these representatives of Xerox can state the quality of the paper used, if it is Xerox paper, and possibly the source using this quality of paper. These representatives can also determine the quality of the toner used and report if it is a Xerox product or another commercial toner. Different type toners are used in the various Xerox copiers to produce the best results. Some Xerox clients do not use Xerox paper or toners in their Xerox copiers. u

b6  
b7C

At the end of each month, the numerous customers of Xerox Corporation operating copiers send to the home office at Rochester, N. Y., a tally card reflecting the number of copies they have made on their machine for that preceding month. If necessary, arrangements can be made through Xerox Corporation, Rochester, N. Y., to determine if a customer did have an unusually large increase in the number of copies produced during March, 1971. u

On April 5, 1971, SA [redacted] of the Rochester, N. Y., Resident Agency was telephonically contacted by SA THOMAS F. CARRIG and requested to contact the officials at Xerox Corporation, Rochester, N. After conferring with the business officials at Xerox, SA [redacted] informed that it is not feasible nor will it come up with any good suspects relative to the amount of work run off on a 660 Copier as compared to previous months. He stated that customers have, in the past, had an unusually heavy month; however, their tally cards do not reflect this number and they save themselves money by portioning it out over a period of six months to pay for the unusually heavy run of copies. u

The Buffalo Office on March 24, 1971, advised that contact with Xerox Corporation officials, Webster, N.Y., on that date disclosed the following information concerning item Q2 (Statement of the Citizens Commission to Investigate the FBI); u

"Process-definitely a Xerographic (Electrostatic) process utilizing a thermoplastic toner which adheres to paper rather than penetrating as in the wet (ink) process. Xerographic process used by Xerox and IBM.

"Machine-characteristic of Xerox tending towards Model 660 which is only Xerox machine reproducing at one to one ratio. Dark horizontal line, three quarter inch from bottom, caused by "tail end flip" and vertical lines two and one quarter inch from sides at bottom caused by toner buildup on feeder rollers. Dark square one half by one half, upper right, caused by translucent nature of original document passing over similar size opening in drum. Gripper marks, top of paper, common to 660, can be eliminated by re-phasing drum in relation to optical system. u

"Toner-thermoplastic which has melting characteristics similar to the Xerox toner and toluene solution reaction similar to Xerox toner, but could be toner of similar composition of a competitor. u

Paper does not appear to be Xerox. u

Xerox engineers advised examination of uncontaminated copies will likely produce more conclusive results." u

The Buffalo Office on March 31, 1971, advised that continuing analysis of the questioned Xeroxed material consisting of extensive comparisons between documents to develop the unique characteristics imparted by the machine reproducing these copies that would effect an identification when a suspect machine is located. Xerox officials are of the opinion that if the machine producing these documents is located, it can be identified. u

The Buffalo Office on April 2, 1971, advised that a analysis by Xerox Corporation of samples of paper used to reproduce the questioned documents revealed that they were made on paper produced by Hammermill, either for Xerox or other Hammermill distributors. u

The Bureau on April 2, 1971, advised that the Xerox Corporation had identified the copier used in reproducing instant documents as being Model 660 (desk top type). u
